|{{How to touch type Russian

|I find it very difficult to understand when someone types Russian using the Latin letters. I want you to learn how to type Russian, so we can [<http://www.facebook.com/groups/Chat.in.Russian> chat in Russian].

|You type English! I type English! We type English!

|Нет, нет и нет! We type Russian! We learn Russian! First of all you need [[[How to install a Russian keyboard/{{SUBPAGENAME}}](#)]] to install a Russian keyboard]].

|It's too much!

|

==Russian virtual keyboard==

|Then use Russian virtual keyboards

|▷ Translate from: Russian ▷  Click 'Allow phonetic typing' ▷ Type 'Privet' ▷ Hit space for 'Привет'

|It is very confusing: a{{=}}ф and f{{=}}а!

|Use Russian phonetic virtual keyboards  [<http://www.branah.com/russian> Branah] 

[<http://winrus.com/klava.htm> Winrus.com] It's "wrong", but more logical: a{{=}}а, f{{=}}ф, s{{=}}с, g{{=}}г, w{{=}}ш. If you can touch type with Latin keyboard, you learn to touch type Russian in no time with the Russian phonetic keyboard.

|I can copy and paste the Russian words from there. It is easy, but it takes too long!

|You have to [[[How to install a Russian keyboard/{{SUBPAGENAME}}](#)]] install a Russian keyboard]] then.

|

==Learn where the Russian letters are==

|Click on the icon of the snail to start the game [<http://teremoc.ru/game/game111.htm> Teremoc.ru]

|Click on the keys to hear the letters [<http://www.ilike2learn.com/ilike2learn/russian/keyboard.html> Ilike2learn.com]

|Print out the Russian keyboard image and put it in front of you

|Write the letters on little pieces of self-sticking paper and glue them to the correct keys of your keyboard

|Don't forget to unglue them as soon as you have learnt the letters!

| Buy Russian keyboard stickers
